# Mum's luck was in for baby's arrival

By Lauren Clarke

A COVENTRY mother is proving having a new baby doesn't have to break the bank - after winning everything she needed for her newborn daughter.

Pallavi Prasad has won a pushchair, car seat, cot, baby carrier, car seat, cot, baby carrier and more baby items even she was sure.

The 30-year-old mother of one-month-old Pawan originally began her hunt for bargains in 2013 when she was out of work for a year.

Using her newfound free time she spent several months looking for opportunities to win prizes.

Speaking about the inspiration behind her new passion, Pallavi told the Observer: "When I was unemployed I started looking out for bargains and sometimes I'd have a lucky dip."

She produced her own prizes for shopping and online competitions.

"I recently won £1,000 from Classic FM."

"Whenever I see a competition online or on the radio, I see it, because I see a first prize that 'you get to be a winner'."

She also offers competitions to her own customers - meaning almost every one she does wins.

"I did it once in an opportunity one week and while I'm a bit nervous, I'm happy to see the positive feedback from my customers, they like to help."

Pallavi Prasad with husband Karam and daughter Pawan. Pallavi has won a car seat, cot, baby carrier and more baby items even she was sure.

## "I BECAME UNSTOPPABLE"

Pallavi Prasad now has more than 15 years of practice in the Law of Attraction. The story of her overwhelming success in manifesting the life of her dreams was picked up by the *Coventry Observer* and BBC CWR. Check out Pallavi's 5-Week Manifestation Mindset Makeover Bootcamp at [positivepowercoaching.co.uk](http://positivepowercoaching.co.uk) and follow her on Instagram @positivepowercoupleuk.

## Create your dream life

"It all started with a book, *The Secret* by Rhonda Byrne. I was studying engineering when someone suggested it to me. I was not sure of who I was and what I was capable of until I read this book - it changed my life! I was made aware of how thoughts can turn into things and that I could create the life I wanted just with my thoughts.

"The very first and one of my biggest manifestations was being selected for a student sponsorship programme to go to Heidelberg Print Media Academy in Germany. Only ten students were selected from all over India and I was among them.

"I always loved to travel. Back then, it was an expensive affair and no one from my family and friends had travelled outside of India. I knew I would travel at some point in my life, but whatever I was looking for was looking for me too... When I was in my third semester in engineering, I was made aware of this programme. I

set my mind and heart to it. I deeply knew that this opportunity was made especially for me. I took the right actions - completed all the assignments, attended every class, created a vision board and visualised it. Then, when I got the news, I was over the moon with joy! My family was so proud of me, they threw a big party. I went on to win second prize for my paper presentation at the Heidelberg Print Media Academy.

## Manifest your soulmate

"I became unstoppable. I went on to manifest my soulmate without even seeing him! He was in the UK and I was in India, we spoke on the phone and decided to get married. We have been blissfully married for 12 years now. When I was pregnant with my first baby, I made a list of all the things I wanted for my baby. I then decided that I was going to win everything - and I did! I won the exact same things that I put on my vision board and more. This included a pushchair, car seat, baby carrier and cot. I also won £1000 from Classic FM, all before the baby was even born. My story was published in the *Coventry Observer*.

"Recently I was featured on BBC CWR, talking about how I'm helping people get through the pandemic and how I healed my relationship with my mother-in-law. I have made it my mission in life to help others stay positive and connected to the rich experiences life has to offer.

"I knew that I had the power to create what I wanted, but I didn't realise then that I could teach others to see what I saw. I picked up the courage a few months ago, got certified, and became a Law of Attraction Manifesting Coach. I know that the Universe is abundant and we can

have everything we want at the same time. I was always keen on finding the purpose of my life and I have found it in coaching. I am not just a newbie coach born from certification, I am a heart and soul-led conscious coach. Whatever I teach, I have been practising it for decades. Everything that grows from within starts from the heart and enriches the soul.

## Shift your reality

"Some of my practices include vision boarding, visualisation, affirmations, mirror manifesting, water manifesting, raising vibrations, deliberate creation, reality shifting, gratitude practice, journaling, training the subconscious mind - to name a few. For example, a vision board is a visual representation of all your dreams and desires and is a bread-and-butter part of any manifestor's toolkit. If you ever wanted to go to a particular place or wanted to grow up to be someone, put those images on your vision board. When you look at them, visualise that you already have them. How does that feel? How does that smell or taste?"

"But the biggest piece of LOA advice I'd give is to try to focus on the goodness in people. Even in the toughest situations, try and look for the good things. Practise gratitude. The more you find things to be grateful for, the more you are attracted to things to be grateful for."

**"I set my mind and heart to it. I deeply knew that this opportunity was made especially for me"**
